

PAX A920 WIRELESS TERMINAL

Designed for mobility EMV chip card and NFC Certified!

The A920 wireless payment terminal has been designed with versatility in mind. No matter your terminal configuration requirements, you will be able to accept EMV chip card, contactless cards, mobile wallets and legacy magnetic stripe cards. With its compact size, extended battery life and built in 4G communications, it is designed to process transactions on the go.

SLEEK COMPACT DESIGN

The A920 has been designed with clerk-customer interaction in mind.

- Lightweight and ergonomically engineered to be comfortably passed and held for simple and secure data entry
- Bright color display and menu-driven prompts make it easy and intuitive for clerks and customers alike, in or outdoors

SECURE

The A920 is PCI 2.x and 3.x compliant so it protects cardholder data.

- EMV chip card transactions significantly reduce card-present counterfeit card use, improve global interoperability, and ensures that merchants are covered for the shift in fraud liability that occurred in October, 2015.

VERSATILE

The A920 can be readily configured to meet the demands of your business and your customers' needs.

- EMV compliant TODAY.
- Integrated contactless reader facilitates tap-and-go payments and ability to support NFC mobile wallets
- Supports Credit, PIN Debit, EBT

AFFORDABLE

Have a single terminal solution you can use wired in your business on the charging base and wirelessly while you are out on the road. Just disconnect from the charging base and go.

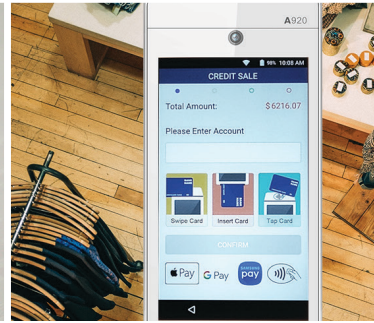

SURCHARGE

The A920 terminal fully supports the EMS Percent and New York State Flat Fee Surcharge program.
