# VIRTUAL TERMINAL

Take Payments From Your Computer

EMS provides and supports proven payment gateway technology that complements your back-office selling processes. Simplify the many facets of getting paid by your repeat customers in a way that is efficient and secure.

CIO Review

10 MOST PROMISING
PAYMENT AND CARD
CONSULTING/SERVICES COMPANIES - 2019

WEB-BASED VIRTUAL TERMINAL & MOBILE APP

A complete browser-based payments solution combined with applications for both iOS and Android devices. Process your payments on a computer, a smartphone, or a tablet. Includes inventory, customer management, and reporting tools that coordinate with your business and simplify the transaction process.

SET & FORGET ONGOING PAYMENTS WITH RECURRING BILLING

Create a payment schedule that will automatically run future customer charges when due. All you have to do is set-up the recurring billing schedule and the payment gateway handles the rest.

SECURE VAULT STORAGE OF CUSTOMER CREDIT CARD INFORMATION

Create customer profiles that allow for secure storage of customer credit card information for future sales or billing. No longer ask for credit card information on every sale.

ADD CREDIT CARD PAYMENT TO YOUR ONLINE STORE

Plug & Play with most commercially available shopping cart applications making installation a snap. Follow your shopping cart solution's payment set-up steps and be authorizing credit cards in minutes.

GET PAID FASTER WITH EMAIL INVOICING

No more chasing clients for checks or standing in line at the bank. Let your clients pay you online and get paid quicker. Allows you to increase your business agility by sending out personalized invoices that can be paid online by credit card or check.
